

TRANSPARENT ENERGY SYSTEMS PVT. LTD.

WELCOMES

All Delegates

in

**Energy Management Workshop,
Raipur.**

The company

- Incorporated on 16th April, 1986 as Vapor Energy Machines Pvt. Ltd.
- Renamed on 18th December 1995 as Transparent Energy Systems Pvt. Ltd..
- Technology leaders in business groups
- Resource conservation through energy efficiency
- Patented products & services
- Holder of S & U stamps from ASME and R stamp from NB

Business groups

1	Waste Heat Recovery Systems	www.heatrecovery-system.com
2	Waste Heat driven Power Plants	www.heatrecovery-system.com
3	Co-generation Systems	www.tesplcogen.com
4	Ammonia Absorption Refrigeration Plants	www.tesplaarp.com
5	Power Boilers	www.tespowerboilers.com
6	Combustion Turbine Inlet Air Cooling Systems	www.turbineaircooling.com
7	Rankine Cycle Power Plants	www.rankineplant.com

Business groups (cont'd)

8	Air Cooled condensers & Coolers	www.tespl.com
9	Process Boilers & Heaters	www.tesprocessboilers.com
10	Biomass Gasification Plants.	www.bmethanation.com
11	Lithium Bromide Absorption Chillers	www.tespl.com
12	Zero Liquid Effluent Discharge Plants	www.zldplants.com
13	Waste Incineration fired Power Plants	www.mswcombustion.com ; www.mswuse.com
14	Energy & Water Conservation Consultancy.	www.tespl.com

Business alliances & collaborations

Mattes Engineering GmbH, Germany – *Since 1994*
Technical collaboration and know-how transfer agreement for
Ammonia Absorption Refrigeration Plants (AARP)
www.mattes-int.com

LaMont-Kessel GmbH & CO., Germany – *Since 2007*
Technology licensing and know-how transfer agreement for
boiler capacities up to 300 TPH.
www.lamont-services.com

Bioenergie Beratung Bornim GmbH, Germany – *Since 2007*
Technology licensing and know-how transfer agreement for
wet & dry fermentation of solid, semi solid & liquid
biomasses, bio-diesel and ethanol production technologies.
www.b3-bornim.de

Business alliances & collaborations (cont'd)

Jiangsu Shuangliang Air-conditioning Equipment Co. Ltd.,
China – *Since 2004*
Co-operation agreement for application engineering, sales
and service of LiBr Absorption Chillers.
www.shuangliang.com

Shandong Qingneng Thermal Power Equipment Co., Ltd.,
China – *Since 2006*
Co-operation agreement for application engineering, sales
and service of Steam Turbines with subsidiary of TESPL.
www.qnpower.com

The Cool Solutions Company, USA
Co-operation understanding for wide range of engineering
services.
www.coolsolutionsco.com

Waste Heat Recovery Systems and Power Plants

Sources of waste heat

- Hot waste gases from
 - Steel Melting Furnaces
 - Industrial Furnaces
 - Incinerators
 - Process Waste Gas
 - Cement Plants

- Exhaust gas from Gas Turbines

- Exhaust gas from Engine Generators
 - Heavy Fuel Oil fired
 - High Speed Diesel fired
 - Natural Gas fired

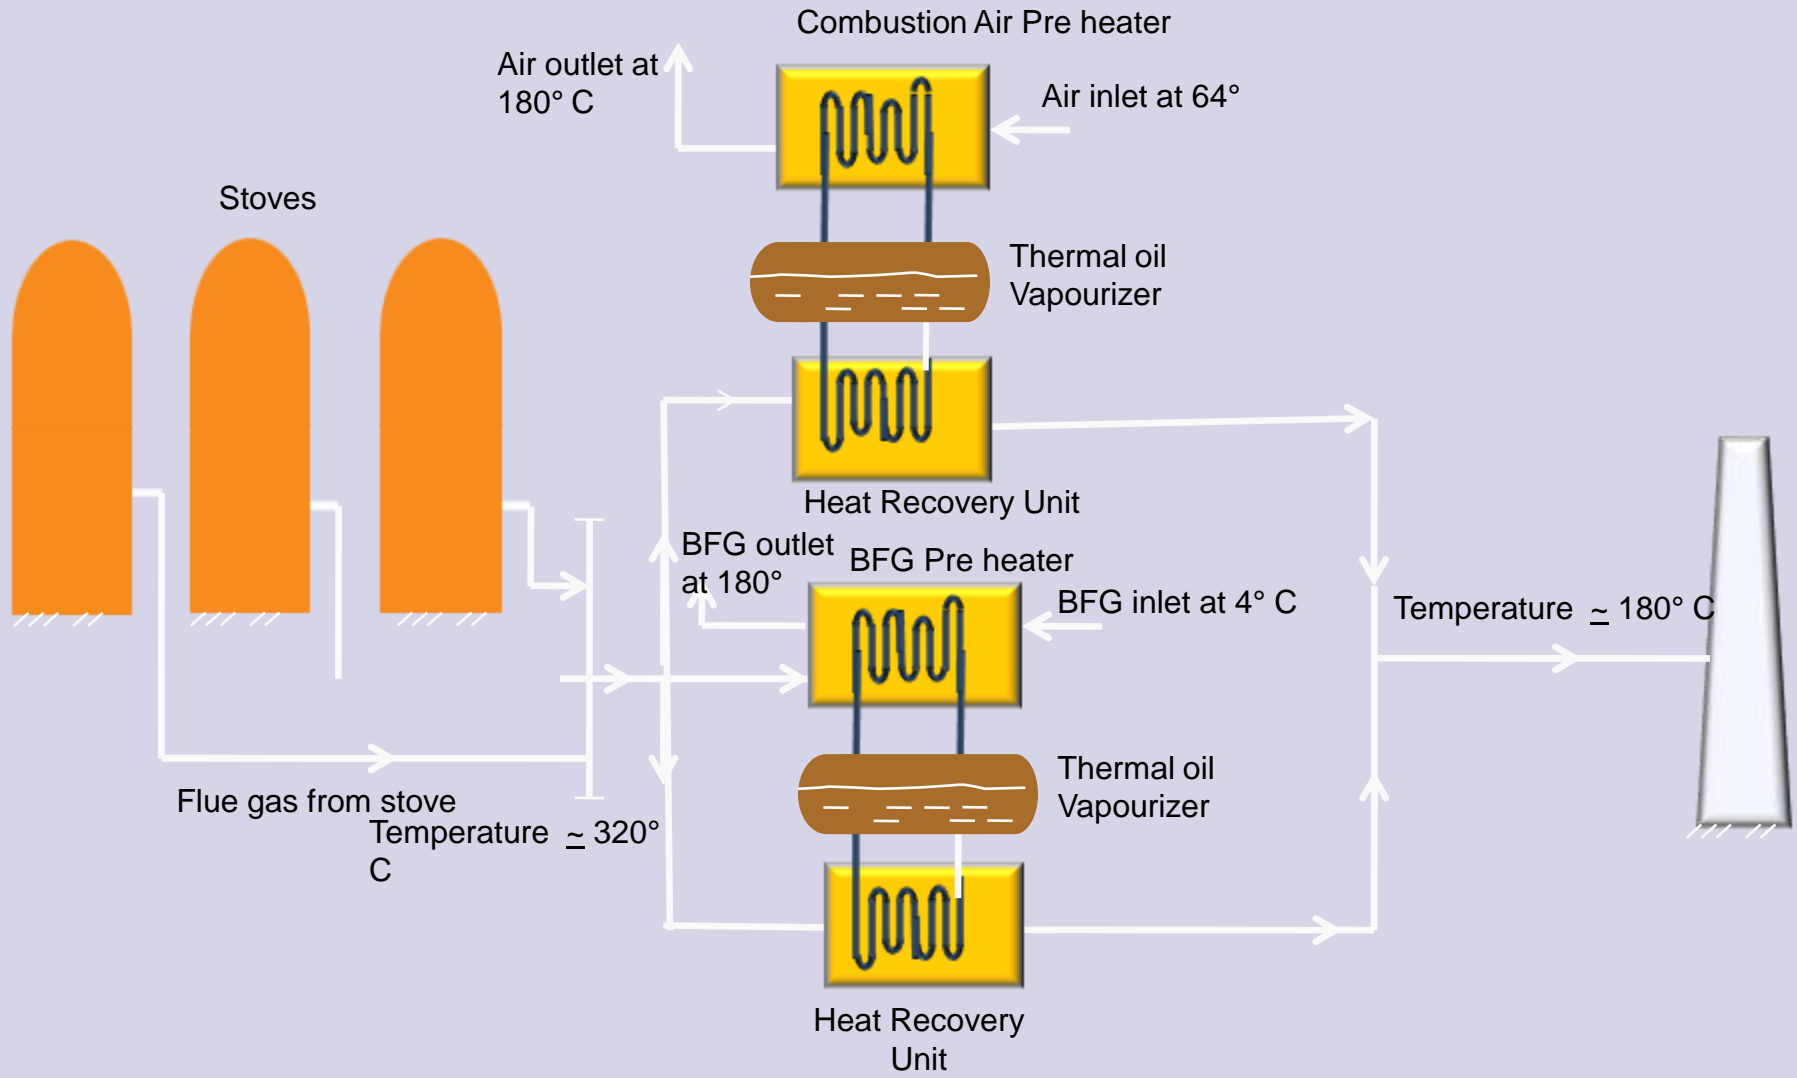

- Jacket Water from Engine Generators

BFG Fired Boilers

- 100% BFG combustion *without supporting fuel*
- Cyclonic refractory lined furnace
- Balanced Draft
- Wet front design
- Ceramic ferrule protection for front tube sheet
- UV flame sensors
- Vortex type BFG burners
- Pre-Heated Combustion air
- Water Seal On Gas Line
- Continuous modulation with single element drum level control

Waste Heat Recovery from flue gases of stoves and its utilization in preheating BFG and Combustion air, in Pig Iron manufacturing Plant.

Vertical Co-Flow design for WHRB

Tubes shown by this colour are in flue gas path

Tubes (headers) shown by this colour are out of flue gas path

Arrows shown by this colour indicate Exhaust gas flow

Waste Heat Recovery Systems (cont'd)

Hot waste gases from Glass Furnace

Exhaust gas from Gas Turbine

Waste Heat Recovery Systems (cont'd)

Exhaust gas from Engine Generators

WHRB for 3 X 1 MW HSD fired engine

WHRB for 2 X 1 MW gas fired engines

WHRB for 3.8 MW HFO fired engine

Waste Heat Recovery Systems (cont'd)

Jacket Water heat recovery from Engine Generator set

WHRB on 6.7 MW gas fired engine

Waste Heat driven Power Plants

Exhaust gases from

- Cement Plants
- Float Glass Plants
- Gas Turbines
- Engines
- Steel melting furnaces
- Other metallurgical furnaces
- Incinerators
- Process waste gases

Waste Heat driven Power Plants (cont'd)

- 2.3 MW gross power
- Exhaust gas from Cement Plant
- Plant capacity – 1700 TPD
- Water cooled condensing

Waste Heat driven Power Plants (cont'd)

- 5 MW gross power in Cement Plant
- Exhaust gas from pre heater only
- Plant capacity – 3000 TPD
- Water cooled condensing

- 4 MW gross power in Cement Plant
- Exhaust gas from clinker cooler only
- Plant capacity – 7500 TPD
- Air cooled condensing

Waste Heat driven Power Plants (cont'd)

- 13.2 MW gross power
- Exhaust gas from Pre heater & Clinker Cooler both.
- Plant capacity : 3000 TPD X 2 Nos.
- Air cooled condensing
(Project under execution)

Co-generation Systems

- Combined generation of

Power

Heat

Refrigeration & Chilling

Evaporation & Drying

- Fuels & Energy Sources

Coal

Biomass / Agro residue

HFO / LDO / HSD / NG

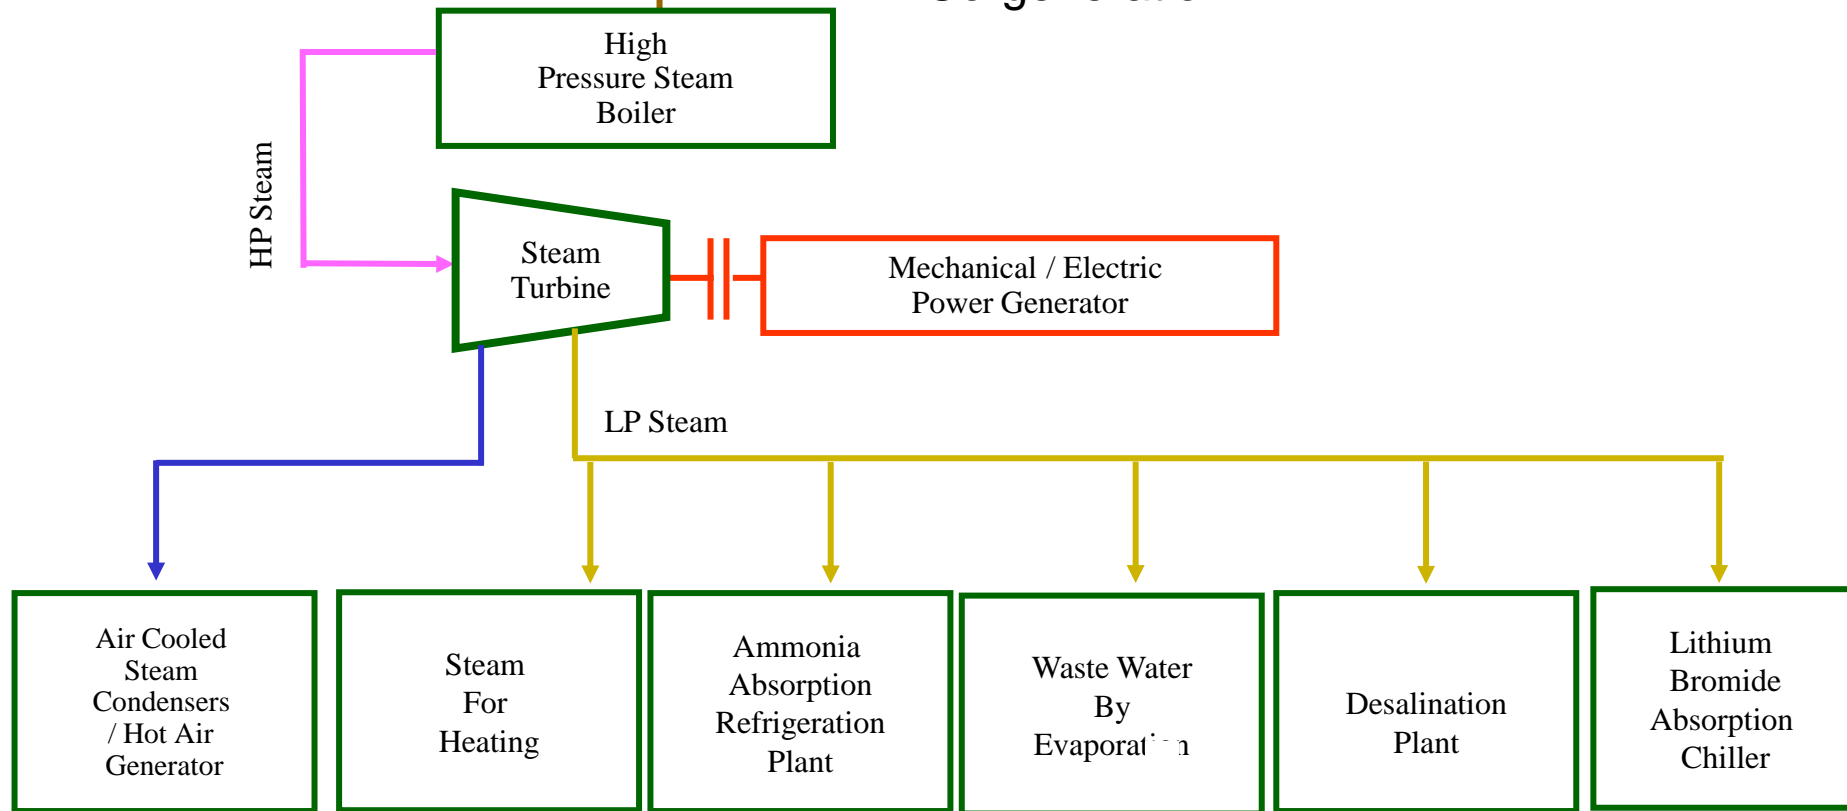

Bio gas

Process waste gas

Co-generation Systems (cont'd)

FUEL :
 Biomass, Agrofuels, Coal,
 Heavy Oil,
 Natural Gas.

Steam Turbine based Rankine Cycle Co-generation

Co-generation Systems (cont'd)

Engine based Co-generation

Gas Turbine based Co-generation

Ammonia Absorption Refrigeration Plants

- Technical collaboration and know-how transfer agreement with Mattes Engineering GmbH, Germany

- Operates on low grade energy sources

Steam

Hot Water

Hot Oil

Fuel fired

- Wide operating range

+5 to -60 Deg. C

- Ammonia is an Eco – Friendly refrigerant

- High reliability and low maintenance

- Long life – At least 25 years

Ammonia Absorption Refrigeration Plants (cont'd)

- Freeze Drying
- Food Refrigeration
- Brine Cooling
- Cold Storage
- Vapor ammonia recovery in chemical processes

- Refineries
- Fertilizer Plants
- Bulk Drug Industries
- Pesticide Plants
- Chemical Plants.

- Dairies
- Ice Plants
- Ice Cream Plants
- Meat Processing
- Fish Processing

Ammonia Absorption Refrigeration Plants (cont'd)

- Client : CCL Products Ltd.,
Vijaywada, AP
- Application : Coffee freeze
drying
- Brine temperature : - 54 Deg. C
- Capacity : 2100 kw

Power Boilers

- Technology licensing and know-how transfer agreement with LaMont Kessel GmbH & Co., Germany
- Steam Boilers
 - Capacities up to 290 TPH
 - Pressures from 8 to 136 bar
 - Temperatures up to 535 C
- Thermal Oil Heaters / Hot Water Boilers
 - Capacities from 1 MW to 174 MW
- Waste Heat Recovery Boilers
- Fuel suitability
 - Fuel Oils / NG / Coal / Biomass
 - Industrial & Municipal Waste
- Over 20000 designed installations so far by LaMont.

Power Boilers (cont'd)

Horizontal compact boiler – 100 TPH

Waste Heat Recovery Boiler for
Kawasaki

Zero Liquid Effluent Discharge Plants

- Low grade energy driven Multistage Evaporation Plants

- Can be followed by Spray Drier to make it a Zero Liquid Discharge Plant for effluent.

- High evaporation efficiencies available
 - 3 stage plant - 4.4 kg water / kg steam
 - 5 stage plant - 7 kg water / kg steam
 - 7 stage plant - 10 kg water / kg steam

- Driving source of low grade energy can be,
 - Incinerator exhaust gas
 - Furnace exhaust gas
 - Engine exhaust gas
 - Engine Jacket water

Waste Incineration fired Power Plants

MSW / any other waste incineration for

- Power generation
- Process steam generation
- Process hot water generation

Technology options

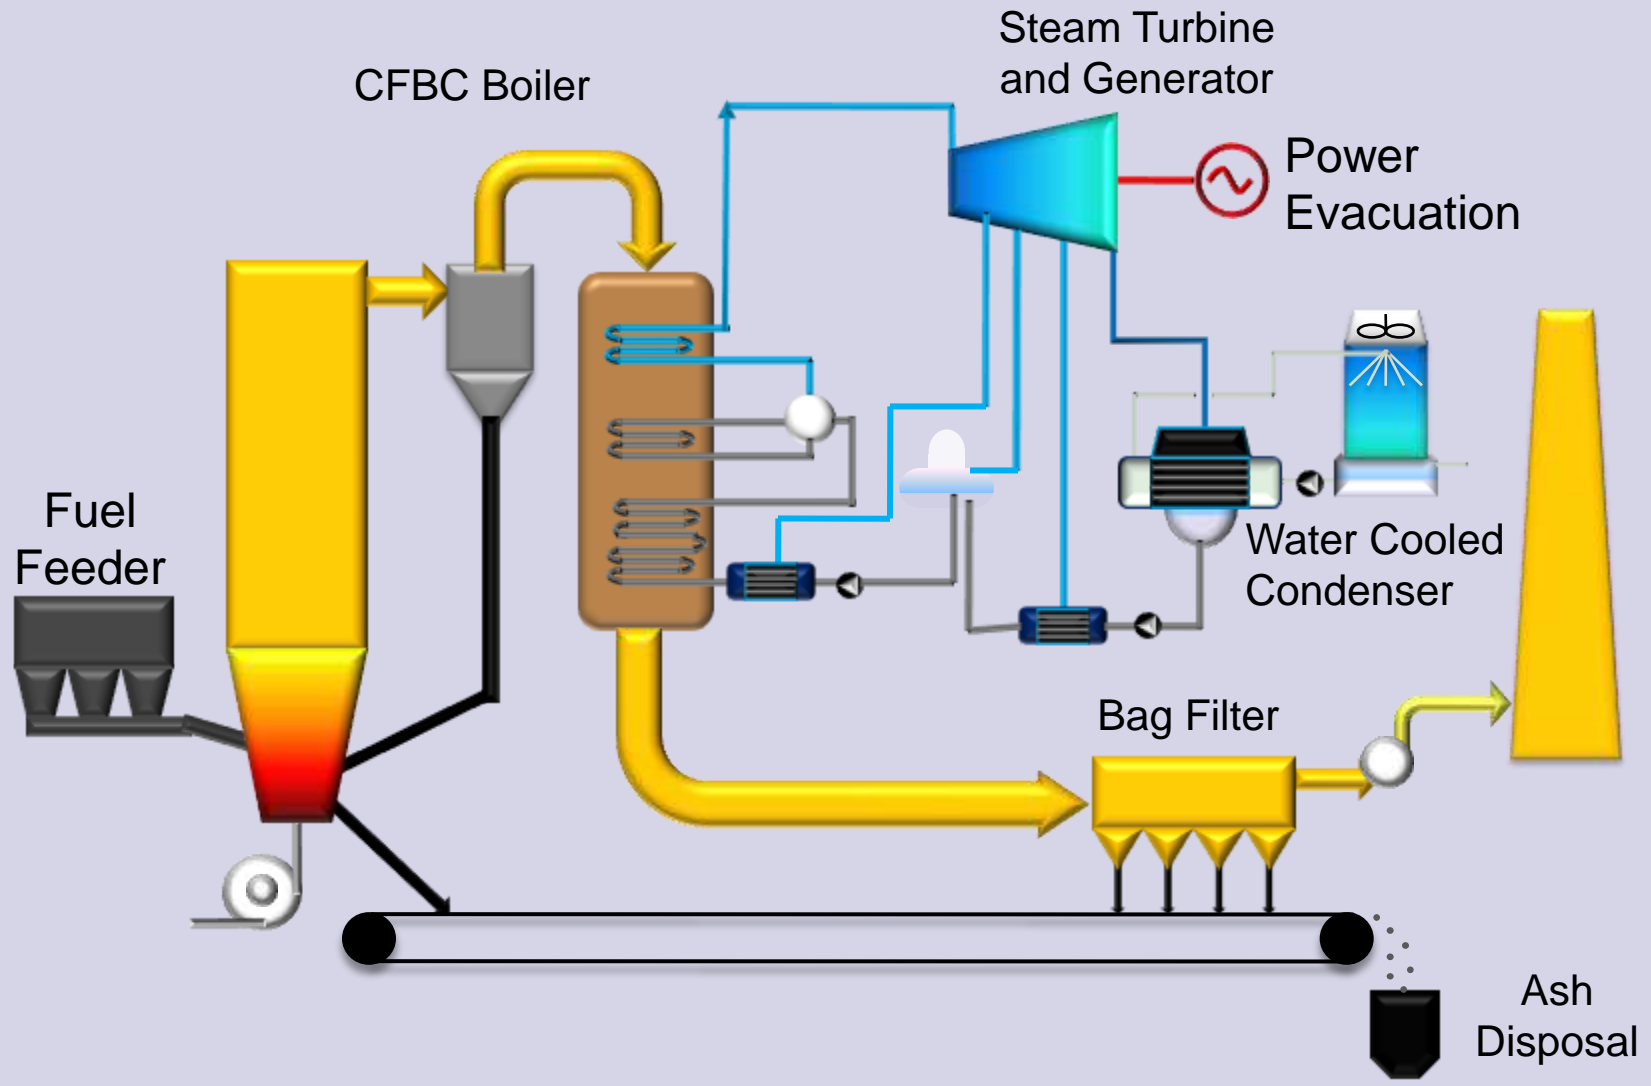

- Rotary kiln
- Travelling Grate

Designed to mass incinerate un-segregated waste with supplementary fuel firing

Engineered to meet emission norms of

- MSW rules 2000
- Directive 2000 /76 /EC

Rankine Cycle Power Plants (cont'd)

Biomass Gasification Plants

- Technology licensing & know-how transfer agreement with Bioenergie Beratung Bornim GmbH, Germany.
<http://www.b3-bornim.de>

B³

- Generation of energy from renewable source i.e. Electricity, Steam, Hot Water, Cooling, Chilling, fuel from bio waste

- Nutrient rich bio fertilizer production as a by product

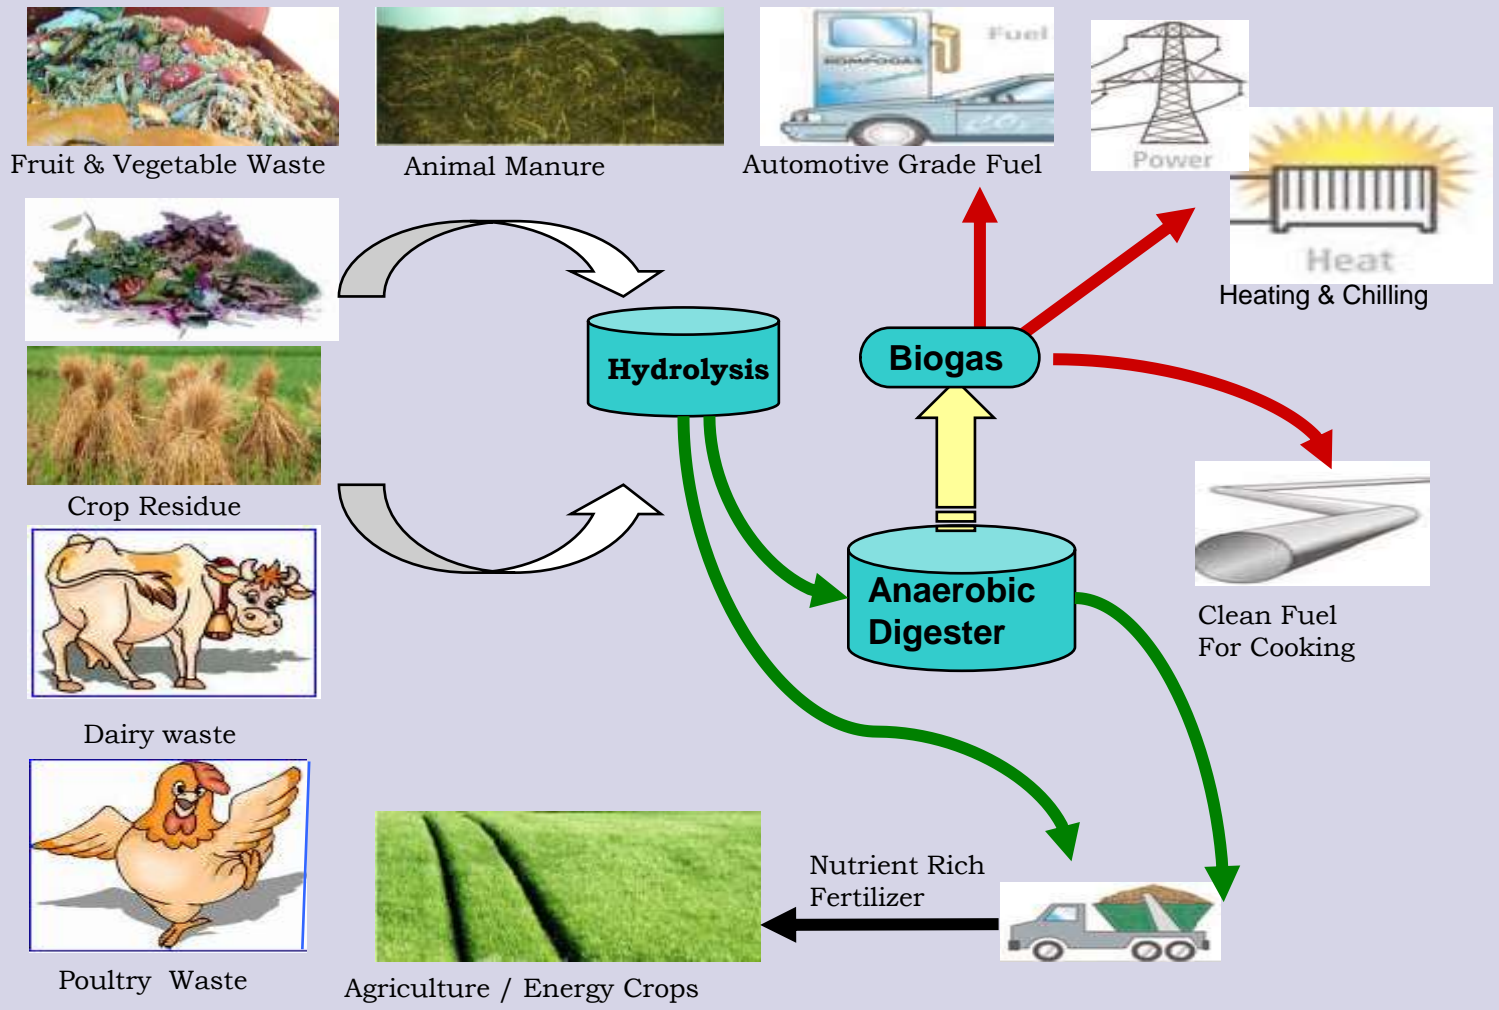

- Two Stage methanation process

- Earns carbon credits : CH₄ has 21 times global warming potential than CO₂

Biomass Gasification Plants (cont'd)

Potential biomasses

Energy & Water Conservation Consultancy

- Consultancy in Energy & Water Recycling.
- Integration with process plant.
- Customized & optimal solutions.
- Green field projects as well.

Industries we serve

Cement	Dairy	Distilleries
Steel	Paper Mill	Refineries
Sugar	Ceramic	Fertilizers
Chemical & process	Food	Pesticides
Pharmaceutical	Edible oil	Breweries
Textile	Automobile	Software Parks
Hotels	Commercial complexes	Solvent Extraction

Customers

Client Base	Total Customers	500
	Overseas Customers	25
	Waste Heat Recovery	180
	Boilers & Heaters	150
	AARP	25
	Other Products	120

Partial list of domestic clients

Waste Heat Recovery Systems

- Tessitura Monti Ltd.
- Galaxy Sunfractants Ltd.
- Asahi Glass India Ltd.
- Heubach Colour Ltd.

Customers (cont'd)

Partial list of domestic clients

Waste Heat driven Power Plants

- The KCP Ltd.
- Ultratech Cement Ltd.
- Shree Cement Ltd.
- OPG Metals Pvt. Ltd.
- Saint Gobain Glass India Ltd.

Co-generation systems

- JBF Industries
- Godrej Industries Ltd.
- Warna SSK
- Hero Honda Motors Ltd.

Ammonia Absorption Refrigeration Plant

- Pepsico India Holdings Ltd.
- Asian Paints Ltd.
- Cargil Foods
- Galaxy Surfactants Ltd.

Power Boilers

- SEPCO
- Sumeet Industries Ltd.

Customers (cont'd)

Partial list of domestic clients

Process Boilers & Heaters

- Raid & Taylor,
- Gharda Chemicals Ltd.
- Alkyl Amines Chemicals Ltd
- Sun Pharmaceutical Industries Ltd.

Lilthium Bromide Absorption Chillers.

- Zee Telefilms Ltd.
- CCL Products India Ltd.
- Jindal Coca

Partial list of overseas clients

Waste Heat Recovery Systems

- Janata Jute Mills, Bangladesh
- Comfort Management, Singapore
- Acidos Minerals, Venezuela

Customers (cont'd)

Partial list of overseas clients

Co-generation systems	<ul style="list-style-type: none"> ▪ JBF RAK LLC, UAE
Process Boilers & Heaters	<ul style="list-style-type: none"> ▪ Pan Century Edible Oils SDN.BHD, Malaysia ▪ Skymoon Singapore Pte Ltd., Singapore
Ammonia Absorption Refrigeration Plant	<ul style="list-style-type: none"> ▪ Niro A/S, Denmark ▪ University of Stuttgart, Germany ▪ Mechanik Centre, Germany ▪ Pars Oil, Iran ▪ Café de Iguacu, Brazil
Zero Liquid Effluent Discharge Plants	<ul style="list-style-type: none"> ▪ A B Mauri La Nga Fermentation Company , Vietnam

Authorizations

CERTIFICATE

The Certification Body for Pressure Equipment
of TÜV NORD Systems GmbH & Co. KG

certifies that the company

Transparent Energy Systems Private Limited
Transparent Group
Pune, Maharashtra, India – 411 026
T-145/146/147, M.I.D.C. Bhosari

has been verified and recognized
as welding workshop in the product range of

**Pressure Equipment, Heat Exchanger, Waste Heat
Recovery Boiler**

based on the requirements of the standard

DIN EN ISO 3834-3 (EN 729-3)

Certificate-no.: 07-202-1423 EN 2070/09

The range of validity and details of the inspection can be seen in our

Report-no.: 21703209

The company is using a quality assurance system
technical equipment, qualified personnel and procedures for joining processes
to manufacture and repair of welded products

This certificate is valid until

December 2012

Essen, 14.12.2009

Certification Body for Pressure Equipment
of TÜV NORD Systems GmbH & Co. KG
Notified Body Reg.-No. 0045

TÜV NORD Systems GmbH & Co. KG • Essen Office • Certification Body for Pressure Equipment
Langemannstr. 20 • 45141 Essen

CERTIFICATE

The Certification Body for Pressure Equipment
of TÜV NORD Systems GmbH & Co. KG

certifies that the company

Transparent Energy Systems Private Limited
Transparent Group
Pune, Maharashtra, India – 411 026
T – 145/146/147, M.I.D.C. Bhosari

has been verified and recognized
as manufacturer of

Pressure Equipment, Heat Exchanger, Waste Heat Recovery Boiler

according to the rules of

AD 2000-Merkblatt HP0
inclusive of Directive 97/23/EC annex I, sec. 3.1

Certificate-no.: 07-202-1423-HP-2070/09

The range of validity and details of the inspection can be taken from our

Report-no.: 21703209

The company has established a product-related quality system
together with personnel and equipment which assures
manufacturing and testing corresponding to the technical rules.

This certificate is valid until

December 2012
