

Weather of India

2 months Rain... 2 months Cold...

and....

8 months are Hot...!!!?

**Want relief
from the Heat ?**

its

100% Natural !

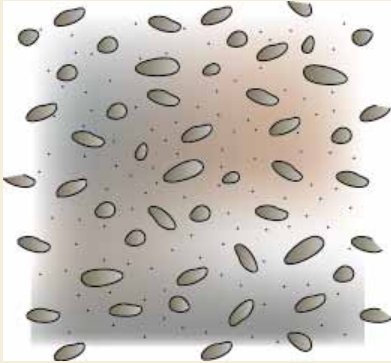

and at reasonable cost

motivation's
mEV
xfoliated vermiculite

**Motivation's Xfoliated Vermiculite
Best for all Buildings**

Properties

Centering temperature- °C	about 1260
Specific Gravity	2.6
pH Value	7.0
Thermal conductivity, BTU in stf/hr./F	0.45
Thermal conductivity, K value-watt/M. calvine	0.06
Bulk Density	6kg.c.ft. (±10%)

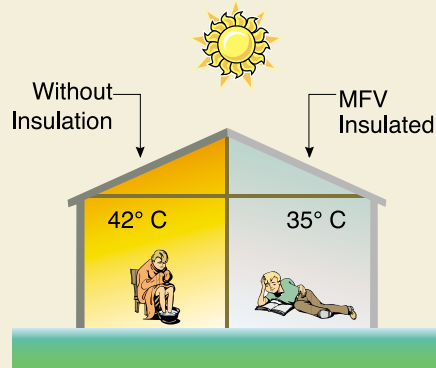

Physical Characteristics of 'MFV'

- Chemically inert
- Fire resistant
- Flaky Material
- Non abrasive
- Porous- light weight
- Rot proof

Reduces unwanted heat flow.

Reduces the Air Conditioning power consumption.

Overdeck Insulation

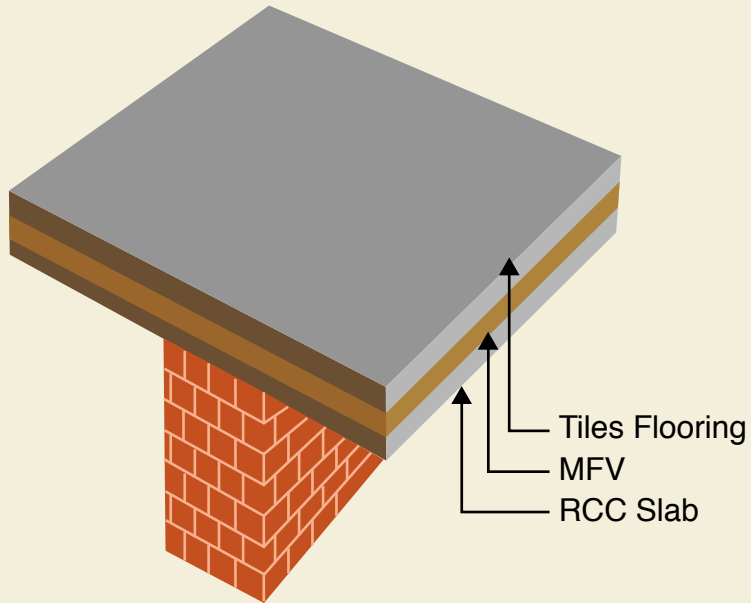

- **Light weight**
- **100 Natural**
- **Keeps Building Temperature 8-10° lower.**
- **Mix the MFV in 6:1 ratio with Cement**

Reduces unwanted heat flow.

Reduces the Air Conditioning power consumption.

Overdeck Insulation

Insulation with RCC Slab

- **Recommnded Thickness of wall
50 to 300mm**
- **Can be Used in side wall & cavity.**

Cavity wall / Bricks

Insulation with Wall Cavity

Reduces unwanted heat flow.
Reduces the Air Conditioning power consumption.
