ENERGY MANAGEMENT POLICY

Manikgarh Cement Energy Management Policy is committed to Total Energy Management and Prevention of Energy Wastage.

Our mission is :

- * To be the lowest energy consumer in Cement Industry.
- * To maximize utilization of renewable sources of energy and low calorie fuels in our operations.

This we plan to achieve by the following:

- * Continual up-gradation of technology, Efficient Management of energy utilization.
- * Up-gradation of process technology and equipments.
- * Continuous review of specific energy consumption norms and bench marking them with the best in Cement Industry.
- * Regular monitoring of implemented energy saving proposals and energy reporting system.
- * Training of employees in the area of energy conservation and creating awareness among all employees on efficient use of energy.
- * Exploring avenues for utilization of resources like bamboo dust /rice husk etc.
- * Commitment of top management in improving our industrial energy scenario.
- * Carrying out regular internal & external audits to identify areas for improvement.

Company is committed to reduce Specific Energy Consumption both Electrical and Thermal by 1% every year for next 5 years i.e. up to year – 2010.
