ENERGY MANAGEMENT POLICY

Maihar Cement Energy Management Policy is committed to Total Energy Management and Prevention of energy wastage.

Our mission is :

- To be lowest energy consumer in the Cement Industry.
- To maximize the use of renewal fuels and low energy level fuels in the operations.

This we plan to achieve by the followings :

- Continual upgradation of technology, Manage efficiently the utilization of energy resources.
- Upgradation of process technology and equipments.
- Continuously review the specific energy consumption norms and bench mark with the best in the Cement Industry.
- Regular monitoring of implemented energy saving proposals and energy reporting system.
- Train employees in the area of energy conservation and to create awareness among all employees on efficient use of energy.
- Top management commitment to improve our industrial energy scenario.
- Carry out regular internal & external audits to identify areas for improvement.

Company is committed to reduce Specific Energy Consumption both Electrical and Thermal by 1% every year for next 5 years i.e. up to year – 2010.

B.L. JAIN
