

## **ENERGY CONSERVATION POLICY**

We at Hassan Milk Union are committed to establish total energy management system by –

- Adopting modern and eco-friendly technologies.
- Adopting 5 “S” principles to minimize and eliminate wastage at all levels of business operations.
- Develop bench marks for optimal use of energy at all levels of process operations.
- Creating awareness amongst all the employees and recognising their initiatives.
- Reducing specific energy consumption year after year.
- Harnessing non-conventional energy wherever viable.
