

The Singareni Collieries Company Limited

[A Government Company]

Energy Management Policy

We, at The Singareni Collieries Company Limited, are committed to continually improve our energy management in all our activities of mining coal, so as to make it environmentally sustainable for future generations.

To meet the above goal we will -

- ★ Carry out Exploration and Exploitation of Coal reserves with Optimum and Economic Energy inputs.
- ★ Conduct regular Energy Audits to monitor systems and operations for maximising energy efficiency.
- ★ Adopt most appropriate technology for saving Energy in all its forms.
- ★ Introduce state of the art Energy Efficient Equipment for Coal Mining operations.
- ★ Use renewable energy sources wherever possible.
- ★ Achieve benchmarking levels of Specific Energy Consumption.
- ★ Bring awareness among all *Singareni*ans to inculcate a habit of judicious and economical use of energy at all places including homes and workplaces.
