

QUALITY AND ENVIRONMENTAL POLICY

Guwahati–Siliguri Products Pipeline shall implement and maintain quality and environmental management system through involvement and adequate training of all the employees to achieve the following objectives:

- Transporting and delivering on spec petroleum products to the marketing installations to their satisfaction.
- Compliance to applicable environmental, health & safety legislations and regulatory guidelines.
- Continual improvement of the effectiveness of quality and environmental management system.
- Optimum utilisation of resources through safe, reliable, efficient, environment friendly operations and continual improvement in technology.
- Creating awareness amongst our employees and interested parties about our concern for conserving environment.
