

"ENERGY MANAGEMENT POLICY"

Apollo Tyres "Energy Management Policy" is committed to total Energy Management and prevention of energy wastage through,

- 1) Continuous training to enhance the Energy Conservation awareness to all the employee
- 2) Practice Energy Efficiency through out the plant operation.
- 3) Use of non-conventional sources of energy.
- 4) Comply with the Energy Legislation and other regulations
- 5) Minimize wastage generation and promote disposal, reuse and recycling in an Environment friendly manner.
- 6) To take an effort to reduce the cost continuously every year by adopting effective "Energy Management System"
