

## **ENVIRONMENTAL POLICY**

### **NAVAL DOCKYARD MUMBAI**

1. Naval Dockyard, Mumbai is engaged in providing quality refits to Naval ships, submarines and yard crafts and undertakes repairs, modifications and alterations to various naval equipment and systems. The yard is committed to continually improve upon environmental performance through pollution prevention and resource conservation.

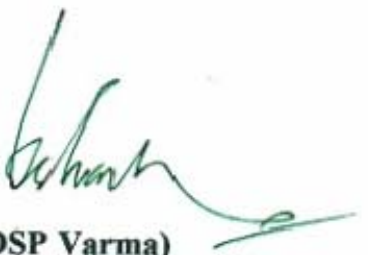

2. To achieve this, we shall strive to:

- Minimize the generation of dust and noise by improving our operational practices.
- Have effective utilization of utilities like water and electricity by recycling and energy auditing.
- Control generation and disposal of effluent water by appropriate effluent treatment methods.
- Undertake greening of the yard.
- Educate, train and motivate employees to execute their tasks in an environmentally responsible manner.
- Set annual environmental objectives and targets and review the progress during each quarterly.

3. Naval Dockyard, Mumbai shall comply with the applicable local and national environmental legislation.

4. This policy shall be communicated to all employees and will be made available to the public on request.

Date: 28 May 02
