

ENCON (Energy Conservation) Commitment, Policy and Set up

SACL – RD strongly believes in integrating the environment with every sphere of business activity through establishing a clear policy to ensure well-being of the employees and society at large. Energy conservation is nurtured as a culture at SAFL – RD and forms part of actions initiated towards this commitment.

Energy policy

Energy

Energy policy

Policy

We at SAFL – RD are committed to continuously improve our energy performance by

- Implementing energy efficient processes,
- Mold design and
- Waste elimination projects.

This will be achieved through total employee involvement

Environment, Health and Safety policy

We at SACL – Rubber division, SACL – Plastics division, Harita Seating Systems Limited (HSSL), and Sundaram Clayton Limited (SCL) located in Harita complex, Belagondapalli, Hosur, are involved in manufacturing of engineering rubber components, engineering plastic components automotive seating systems, and aluminium die casting products respectively.

We are committed to continually improve the environment, health and safety performance by

- Conservation and/or optimal utilization of water, oils, energy, compressed air and raw materials such as
 - Raw rubber and chemical additives by SACL – RD
 - Plastic granules by SACL - PD and
 - Polyurethane chemicals, rexine, fabric and epoxy polyester powder by HSSL
 - Aluminium and die-coats by SCL.
- Minimize health and safety risks to our activities / processes inside the premises
- Controlling generation of emissions, effluents, solid wastes and noise.
- Complying with all applicable legal and other requirements related to environment, health and safety
- Training and building awareness on environment, health and for all people working for our organization
- Encouraging suppliers and contractors to become environmentally responsible.

We will communicate this policy to all employees and make available to the public.
