### **ENERGY MANAGEMENT POLICY**

**To procure and manage energy supplies and their use in the most cost effective manner consistent with the industry's wider objectives and the resources available.**

**The industry will increase energy efficiency by:**

- Adopting best energy management practices
- Regularly monitoring energy use
- Reporting quarterly on energy use to staff and at Management Board meetings
- Establishing an Energy Management organization structure
- Encouraging Energy Managers of significant facilities to initiate Energy Management Committees and/or Energy Champions for their facilities
- Ensuring that new appliances, equipment, and building projects are energy efficient
- Identifying all areas of opportunity for improved energy performance via detailed consultation with staff
- Facilitate developing and implementing an action plan
- Checking the effectiveness of the energy saving measures, periodically document any changes in procedures resulting from process improvement, and make comparisons with objectives and targets.
