

## TITAN INDUSTRIES LIMITED

### ENERGY POLICY

We, at Titan are committed to continuously improve our energy performance in all our activities, products and services so as to make it environmentally sustainable for the future generations.

To this end Titan will:

- ❖ Minimize and eliminate the power wastage in every segment of operation.
- ❖ Monitor and improve energy performance through periodic reviews.
- ❖ Use energy efficient alternatives.
- ❖ Use non-conventional energy resources wherever feasible.
- ❖ Adopt persistent and effective maintenance to ensure quality and reliable power supply.
- ❖ Meet the applicable statutory requirements, setting its own superior standards.
- ❖ Continuously reduce the cost of engineering service by adopting effective "Energy Management System".
