

Jubilant Organosys Limited Nira

Energy conservation policy

Our policy is to manufacture and supply products with the lowest specific energy consumption. We target to achieve this through:

- **Maximizing utilization of non conventional fuel**
- **Continuous bench marking with the global best in the industry.**
- **Effective management of energy resources through good operating and maintenance practices.**
- **Incorporating energy efficient technologies.**
- **Training and developing awareness about energy conservation programme among employees.**
