

**NATIONAL FERTILIZERS LIMITED
VIJAIPUR**

Energy Policy

National Fertilizers Limited, a Government of India undertaking, is a large producer of nitrogenous fertilizer in the country and plays a pivotal role in our national economy. We are committed to continuously upgrade our plants and operating practices so as to improve the energy efficiency and produce Fertilizers at most competitive prices. To accomplish these goals NFL VIJAIPUR will strive for: -

- **Optimum utilization of electrical & thermal energy.**
- **Reducing breakdowns by detailed study of each failure & taking appropriate preventive measures.**
- **Maximizing recovery of waste energy.**
- **Creating energy conservation awareness among employees and their families through training programmes.**
- **Motivating employees through recognition and awards for their energy conservation suggestions / initiatives.**
- **Carry out internal & external energy audits to identify likely areas in need of improvement.**
- **Up gradation of process, technology & machinery based on energy audit reports.**
- **Bring down energy consumption by 0.5% up to the year 2010.**
