Rayon Division, Veraval (Gujarat)

ENERGY POLICY

We, at APPM, remain committed to establish and maintain effective energy management systems and achieve conservation objectives by:

- Optimizing power consumption across the company;
- Reducing fresh water consumption through increased conservation and use of recycled water wherever possible;
- Optimizing the use of steam in all user departments;
- Optimizing the use of chemicals across all processes;
- Effective use of waste heat;
- Efficiency improvement initiatives in steam and power generation;
- Implementation of loss control measures; and
- Meeting all legislative and regulatory requirements.
