ENERGY POLICY

Star Paper Mills Limited, Saharanpur is committed to the cause of Energy Management and reduce its Energy consumption by adopting the following measures.

1. To improve process, operation and maintenance with a view to reduce energy consumption.
2. To reduce wastages and improve productivity to minimise unit energy consumption.
3. To reduce consumption of coal by looking for options to generate steam through rice husk, bark, wood dust and other solid wastes generated in the plant.
4. To create awareness through training/seminars among all employees to conserve energy.
