

Energy Management Policy

Reliance Industries Limited plays a leading role in the national and global economy by providing quality goods and services in the materials and energy value chain.

Our Mission is :

- To become the lowest specific energy consumer in the industry.
- To widen our options for energy sources and
- To minimize the adverse impact of our operations on the environment.

We plan to achieve the above within the framework of sustaining the business by :

- Integrating energy management with the business management and establishing performance driven goals.
- Upgrading hardware, deploying new technologies and improving our practices to increase energy efficiency, reduce greenhouse gas emissions and minimize environmental impacts.
- Supporting scientific research and technological efforts to deliver new sources of energy including renewable and alternate fuels.
- Carrying out regular audits and training employees to promote energy conservation as a culture across the entire business functions.
- Continuously benchmarking our energy efficiency and energy productivity against others.
- Promoting awareness on energy conservation among all members of the Reliance family and the community at large.
