

Hindustan Zinc Limited

Zinc Smelter Visakhapatnam

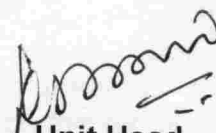

ENERGY MANAGEMENT POLICY

We, at Zinc Smelter Visakhapatnam, are committed to optimally utilize the various forms of energy in all our activities and products so as to become the lowest specific energy consumer in the industry segment and to make it environmentally sustainable for future generations.

To accomplish this, we will :

- *Comply with energy conservation Act-2001 and other statutory requirements.*
- *Involve & train all the employees to make energy conservation a way of life in and outside the plant.*
- *Conduct regular internal and external audits to identify areas for improvements.*
- *Replace energy inefficient equipment with energy efficient equipment .*
- *Adopt energy efficient operations and energy efficient technologies/equipment.*
- *Recognize energy conservation initiatives by our employees.*
- *Reduce the cost continuously by adopting energy management system & six sigma approach.*
