

## Energy Management Policy

Moolchand Medcity is committed to continuously enhance energy efficiency in all its activity services through the use of energy efficient technologies and strict monitoring on energy consumption and prevention of energy wastages, with the full participation of all employees.

### EM Objectives:

1. Monitor and target energy savings for individual areas.
2. Set and track energy saving budgets.
3. Maintain records of significant energy consuming equipments such as Lighting, Air-conditioning, utilities & others.
4. Conduct energy audits to identify & quantify potential saving measures.
5. Develop an annual programme (QCC) of energy saving measures justified by projected financial saving.
6. Promote awareness of the responsibility for energy conservation to all employees.
