

Dear Candidates,

I am sure you are fully prepared for the forthcoming 12th National Certification Examination for Energy Managers and Energy Auditors. This exam is a challenge in many ways - for some, it is the challenge of appearing in an exam after many years; for others, it is a challenge of learning a new engineers discipline; and for yet many others, it is the challenge of taking up a new challenge. But whatever are your challenges, the pleasures of learning and understanding will, I am sure, have provided intellectual excitement and the opening up of many new streams of thought.

At this juncture, I wish to convey my best wishes to you. I am confident that through your best efforts, you will all come out with flying colours.

Best Regards
