19th April 2007

MESSAGE

The 4th National Certification Examination for Energy Managers and Energy Auditors under the Energy Conservation Act, 2001 is being conducted by Bureau of Energy Efficiency, Ministry of Power, Government of India on 21st and 22nd April 2007 in 23 centres spread all over the country. I am glad to note that 2862 fresh candidates and 1570 supplementary candidates are appearing in this Examination.

The Bureau is gratified and encouraged by the response to the National Certification Exam which has already resulted in the certification of 713 certified energy managers and 2023 certified energy managers-cum-auditors from the previous three certification examinations conducted in 2004, 2005 and 2006.

The examination not only aims at ensuring that necessary knowledge is provided to practicing energy engineers, but also at capacity building for meeting the future needs of the energy sector. I am sure that all the energy professionals will gain by appearing in this examination.

I wish the candidates all success in this examination, and also look forward to their valuable contributions to the energy sector.

(Ajay Mathur)
